Explanations of	policies for each "yes" checked above:						

LIHEAP eligibility is based on four (4) main areas: 1) Citizenship and Permanent Legal Resident Status – A household member(s) must be a citizen of the United States or be admitted to this country for permanent residence. 2) Resources – Each household's resources may not exceed \$3,000. 3) Responsibility for Heating/Cooling Costs – Each household must establish they have an account in their name or meet the definition of a renter/landlord applicant and are incurring heating/cooling costs. 4) Income Based on Household Size – Each household must meet specified income guidelines (135% of the federal poverty level) based on their household size. Renters: Individuals living in rental property and who are paying a home energy supplier directly for their heating costs receive the same benefit as a similarly situated homeowner. Renters living in Subsidized Housing: Households residing in public subsidized housing with utilities included as an undesignated portion of their monthly rent, provided they can document they are paying energy costs over and above the utility allowance included in their regular monthly rental charge. Renters Utilities included in the Rent: Households with heating costs included as undesignated portion of their monthly rental charge receive a payment equal to 8% of their annual rental costs or the amount they would receive as a home owner, whichever is less.

Determination of Benefits 2605(b)(5) - Assurance 5, 2605(c)(1)(B)

2.4 Describe how you prioritize the provision of heating assistance tovulnerable populations, e.g., benefit amounts, early application periods, etc.

Applications for households with a household member(s) that is elderly and/or disabled are mailed and accepted for processing each year in the month of October, one month prior to the official program beginning. The official program beginning date is November 1st of each year. A \$100 medical deduction is automatically given to households in which the applicant or spouse is elderly (age 65 or older) or disabled. Only one \$100 deduction will be allowed, even if both applicant and spouse meet either or both criteria. Energy Assistance (EA) benefits are determined based on each household meeting specified income guidelines (135% of the federal poverty level) based on their household size and fuel type. Our attached payment matrices indicates compliance with this assurance in the fact that benefit amounts decrease as income increases to reflect the household's energy costs in relation to their income.

2.5 Check the variables you use to determine your benefit levels. (Check all that apply):

According to Missouri's LHEAP, there are no additional eligibility requirements for crisis assistance; however, in order to receive a window air conditioner unit, there is an age restriction and medical necessity may be required. The policy is written as follows: A household that is LHEAP eligible must have a member who is sixty-five (65) or older or have any household member that has a letter from a qualified physician or nurse practitioner stating that a life-threatening condition exists where an air conditioner will eliminate or significantly reduce the possibility of loss of life or heat-related illness. The letter does not have to include the diagnosis or condition; it only has to indicate there is a need for air conditioning. LIHEAP eligibility is based on four (4) main areas: Citizenship and Permanent Legal Resident Status – A household member(s) must be a citizen of the United States or be admitted to this country for permanent residence. Resources – Each household's resources may not exceed \$3,000. Responsibility for Heating/Cooling Costs – Each household must establish they have an account in their name or meet the definition of a renter/landlord applicant and are incurring heating/cooling costs. Applicants for the Energy Crisis Intervention Program (ECIP) component must additionally have received a notice of termination, be in threat of disconnection, but may not have received a disconnection notice or services have already been terminated. Renters whose heating/cooling costs are included in their rent are not eligible to receive ECIP benefits. Landlord cases, when the landlord sends a fuel bill to the renter, are eligible to receive ECIP benefits as long as the contracted agency receives in writing from the landlord sends a fuel bill to the renter, are eligible to receive ECIP benefits as long as the contracted agency receives in writing from the landlord that the applicant's service is threatened or terminated. 4.16 Do any of the utility vendors you work with enforce a moratorium on shut offs?

⊙ Yes **○** No

If you responded "Yes" to question 4.16, you must respond to question 4.17.

4.17 Describe the terms of the moratorium and any special dispensation received by LIHEAP clients during or after the moratorium period.

The Missouri Public Service Commission (PSC) established a Cold Weather Rule (CWR) for Missouri's investor owned utilities. The CWR prohibits the disconnection of heat-related services and allows customers to make a payment arrangement when the temperature is forecasted to drop below thirty-two (32) degrees fahrenheit. The time period covered under the CWR is November 1 through March 31 of each year. Households that do not honor the payment arrangements made will be subject to disconnect once the temperature is above thirty-two (32) degrees fahrenheit or beginning in April; whichever comes first.

The PSC established a Hot Weather Rule (HWR) for Missouri's investor owned utilities. The HWR addresses time periods which prohibit the termination of energy services to customers when certain extreme heat conditions are forecasted to exceed ninety-five (95) degrees fahrenheit or the heat index is predicted to rise above 105 degrees fahrenheit. The time period covered under the HWR is June 1 through September 30. Households will be subject to disconnect once the temperature is below ninety-five (95) degrees fahrenheit or beginning in October; whichever comes first.

Should an applicant present proof a crisis exists for purposes of receiving ECIP funds, the contract agency should verify with the energy provider whether the service will be terminated or is actually terminated or whether the service will continue due to the CWR or HWR. If the service remains on due to one of these rules, the 18/48 hour requirements do not begin until the day after the service will actually be disconnected. The contract agency should not assume the CWR or HWR are in place just because the timing falls between the moratorium time periods.

Joint application for multiple programs Intake referrals to/from other programs One - stop intake centers Other - Describe:

All programs, with the exception of TITLE VI of the Energy Conservation Act, are administered by the Department of Social Services (DSS) or through contractual arrangements with the nineteen (19) contract agencies throughout the state. Seventeen of which are Community Action Agencies (CAA) and the other two (2) being the Urban League of Metropolitan St. Louis and Mid-America Assistance Coalition (MAAC); both non-profit organizations. CAA's are sub-grantees for the Community Services Block Grant (CSBG) and Head Start, distribute USDA surplus commodities to low income households, administer programs for Missouri's homeless population, administer the Energy Crisis Intervention Program (ECIP) component of LIHEAP, and the intake and eligibility determination functions for the Energy Assistance (EA) component of LIHEAP. This list is not inclusive of all the services provided. The Urban League of Metropolitan St. Louis covers many of the same functions as the CAA's, a primary exception being the CSBG. MAAC also does not provide CSBG.

Eighteen (18) contract agencies also provide information services through contractual agreements with the Missouri Department of Natural Resources for Weatherization services. Missouri's LIHEAP generates a Non-Weatherization printout and shares this with the eighteen (18) contract agencies.

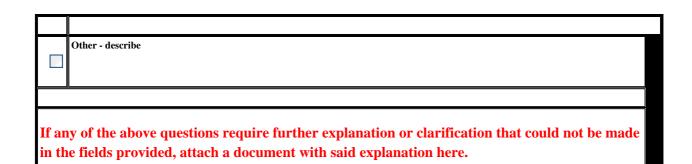

DSS Family Support Division (FSD) Income Maintenance (IM), who administers TANF, Food Stamps and MO HealthNet (Medicaid) has established Resource Centers where clients can come in person to receive services. Resource Center staff will assist us in their communities by working closely with community partners to provide wrap-around services for the families we serve including providing information concerning LIHEAP.

LOW INCOME HOME ENERGY ASSISTANCE PROGRAM(LIHEAP) MODEL PLAN SF - 424 - MANDATORY

Section 9: Energy Suppliers, 2605(b)(7) - Assurance 7

9.1 Do you make payments directly to home energy suppliers?			
Heating	⊙ Yes ○ No		
Cooling	C Yes C No		
Crisis	⊙ Yes C No		
Are there exceptions:	⊙ Yes ○ No		

If yes, Describe.

Direct payments to an applicant will only be made under the following conditions:

- · The energy supplier has not signed a contractual agreement with the State of Missouri to participate in the LIHEAP.
- · The energy supplier refuses to serve a particular account holder.
- · The energy supplier fails to accept or deny the LIHEAP payment by the required thirty (30) calendar day deadline.
- · The applicant's home energy heat cost is included as an undesignated portion of their regular monthly rental charge.
- · The applicant pays a landlord for the home energy heat cost that is not included in their rental agreement.
- · Cylinder propane is used as the home energy heat source.
- · Kerosene is used as the home energy heat source.
- Wood/wood pellets/corn pellets are used as the home energy heat source.

In these circumstances, the applicant is responsible for making the payment and negotiating directly with the Energy Supplier to resolve their energy bill.

If there is a need for additional assistance when a crisis exists, the contract agency must work with the energy supplier to determine how much is needed to maintain or restore services for at least thirty (30) days up to a maximum of \$800 for Winter Crisis and \$600 for Summer Crisis. The energy supplier must have a contractual agreement with the Department of Social Services (DSS) or the contract agency in order to provide a payment to the Energy Supplier because direct payments will not be made to the applicant for Energy Crisis Intervention Program (ECIP) payments.

9.2 How do you notify the client of the amount of assistance paid?

The Energy Assistance (EA) Eligiblity Notice (EA-6) provides the client the amount of EA assistance paid to them directly or will be paid to the supplier. The EA-6 is mailed to the client when the application is determined eligible. Copies of the computer generated notification (EA-6) are included with the attachments to this state plan.

The Energy Assistance Payment Notice (EA-7) is mailed to the applicant after the payment is made to the supplier. It includes the date, amount of the payment, and the energy supplier paid. Copies of the computer generated notification (EA-7) are included with the attachments to this state plan.

When an ECIP payment is made to the energy supplier, the contract agency sends a client notification letter to the applicant which advises the applicant of the date, amount of payment, and name of the energy supplier.

9.3 How do you assure that the home energy supplier will charge the eligible household, in the normal billing process, the difference between the actual cost of the home energy and the amount of the payment?

The Low Income Home Energy Assistance Program (LIHEAP) Supplier Agreement between Missouri Department of Social Services, Family Support Division and Home Energy Supplier Agreement states the energy supplier, "Shall provide home energy fuels in the amount at least equivalent to the amount of pledge made by the State Agency on behalf of the eligible customer; restore and/or continue service during the service period covered by the payment for at least thirty (30) calendar days from the date of pledge made on behalf of the eligible customer for whom the Supplier has agreed to accept the LIHEAP pledge". In addition, states in part, "Shall credit, through normal billing process, the full amount of the LIHEAP payment received to an eligible customer's account".

A sample of the contracted energy suppliers is required to submit actual usage data on the previous year for every customer who

receives a payment from LIHEAP.

A copy of the Low Income Home Energy Assistance Program (LIHEAP) Supplier Agreement between Missouri Department of Social Services, Family Support Division and Home Energy Supplier is included with the attachments to this state plan.

Requirements in this document exceed those specified in the statute and apply to all LIHEAP (EA and ECIP). A written agreement must be executed with energy suppliers prior to any payments being issued to them.

9.4 How do you assure that no household receiving assistance under this title will be treated adversely because of their receipt of LIHEAP assistance?

The Low Income Home Energy Assistance Program (LIHEAP) Supplier Agreement between the Missouri Department of Social Services, Family Support Division and Home Energy Supplier Agreement states, "Shall not discriminate with regard to the terms or conditions of sale, availability of credit, delivery or price of home energy fuels offered to eligible customers in relation to its other residential customers".

Energy supplier complaints are referred to the Missouri Public Service Commission (PSC) for regulated suppliers and the Missouri Attorney General's Office (AGO) for unregulated suppliers.

9.5. Do you make payments contingent on unregulated vendors taking appropriate measures to alleviate the energy burdens of eligible households?

O Yes O No

If so, describe the measures unregulated vendors may take.

Section 10: Program, Fiscal Monitoring, and Audit, 2605(b)(10)

10.1. How do you ensure good fiscal accounting and tracking of LIHEAP funds?

All expenditures of LIHEAP funds are made available under policy, procedures, rules and regulations by the Missouri Office of Administration, Department of Social Services, Division of Financial and Administrative Services and the Missouri Treasurer's Office. No expenditures for heating assistance payments for the Energy Assistance (EA) component of LIHEAP are made unless:

- The eligibility of the program participant has been established and updated to the centralized computer file, which performs numerous edits to validate the accuracy of the determination and determines the amount of assistance to be paid;
- The home energy supplier who is to receive payment on behalf of the household has entered into an agreement to participate in LIHEAP and has been added to the automated file of participating home energy suppliers; and
- The payment to be made to the home energy supplier or the eligible household has been prepared through our automated check
 writing system which performs numerous edits to assure the accuracy of the payment and the eligibility of the home energy supplier or
 household to receive the payment.

Funds provided to the contract agencies for the Energy Crisis Intervention Program (ECIP) component of LIHEAP are subject to the following conditions:

- No funds are released to a contract agency unless a signed written agreement which stipulates the purpose(s) for which those funds are expended, as well as several other conditions governing the expenditures of these funds;
- Contract agencies are required to submit monthly, as well as annual program/financial reports to document the expenditure of funds
 provided to them through LIHEAP;
- The State Auditor's Office audits the Family Support Division (FSD's) LIHEAP and makes the results of their audits available at https://www.auditor.mo.gov. These audits are scheduled and conducted by the State Auditor's Office (SAO) and are independent of DSS; and
- In accordance with Office of Management and Budget (OMB) Uniform Guidance Audits of States, Local Governments, and Non-Profit Organizations, each contract agency secures an external audit in order to comply with the Single Audit Act of 1984. Copies of these audit reports are provided to the Department of Social Services, Family Support Division, LIHEAP Unit, and Division of Finance and Administrative Services, Compliance Services Unit.

16.1 Describe your progress toward meeting the data collection and reporting requirements of the four required LIHEAP performance measures. Include timeframes and plans for meeting these requirements and what you believe will be accomplished in the coming federal fiscal year.

FFY 2017, LIHEAP Performance Data Form completed sections: V. Energy Burden Targeting, VI. Restoration of Home Energy Services and VII. Prevention of Loss of Home Energy Services. FSD did not have electric data for natural gas and propane for the Energy Burden section.

FFY 2017, LIHEAP policy was changed to require agencies to record electric supplier as secondary energy source when natural gas or propane is primary energy source.

FFY 2018, FSD collected natural gas and propane fuel sources along with secondary electric data.

FFY 2019, FSD collected natural gas and propane fuel sources along with secondary electric data. FSD reported on main heating and secondary electric data on Performance Management Form. FSD has requested contract technical support to validate data collection and review report outcomes. Contractor indicated they would make onsite visit this year.

FFY 2020, Contractor made onsite visit and recommendations for Management Information System (MIS) to provide data file instead of aggregated report totals for crisis component of program for performance management data collection. Performance management data verified and validated for FFY 2019 report.

Section 19: Certification Regarding Drug-Free Workplace Requirements

This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988: 45 CFR Part 76, Subpart, F. Sections 76.630(c) and (d)(2) and 76.645(a)(1) and (b) provide that a Federal agency may designate a central receipt point for STATE-WIDE AND STATE AGENCY-WIDE certifications, and for notification of criminal drug convictions. For the Department of Health and Human Services, the central pint is: Division of Grants Management and Oversight, Office of Management and Acquisition, Department of Health and Human Services, Room 517-D, 200 Independence Avenue, SW Washington, DC 20201.

Certification Regarding Drug-Free Workplace Requirements (Instructions for Certification)

- 1. By signing and/or submitting this application or grant agreement, the grantee is providing the certification set out below.
- 2. The certification set out below is a material representation of fact upon which reliance is placed when the agency awards the grant. If it is later determined that the grantee knowingly rendered a false certification, or otherwise violates the requirements of the Drug-Free Workplace Act, the agency, in addition to any other remedies available to the Federal Government, may take action authorized under the Drug-Free Workplace Act.
- 3. For grantees other than individuals, Alternate I applies.
- 4. For grantees who are individuals, Alternate II applies.
- 5. Workplaces under grants, for grantees other than individuals, need not be identified on the certification. If known, they may be identified in the grant application. If the grantee does not identify the workplaces at the time of application, or upon award, if there is no application, the grantee must keep the identity of the workplace(s) on file in its office and make the information available for Federal inspection. Failure to identify all known workplaces constitutes a violation of the grantee's drug-free workplace requirements.
- 6. Workplace identifications must include the actual address of buildings (or parts of buildings) or other sites where work under the grant takes place. Categorical descriptions may be used (e.g., all vehicles of a mass transit authority or State highway department while in operation, State employees in each local unemployment office, performers in concert halls or radio studios).
- 7. If the workplace identified to the agency changes during the performance of

the grant, the grantee shall inform the agency of the change(s), if it previously identified the workplaces in question (see paragraph five).
